TIGRINUM, London

New York, April 1, 1923.

We take pleasure in giving you an extract from our descriptive catalogue with contract prices on various seeds for delivery in late Fall, 1923 and Spring, 1924.

All prices quoted are free New York.

Import Tariff subject to pending revision.

On some items we have not quoted, owing to constant fluctuation in price. Write for latest quotation on any such item that you are interested in. We shall also be pleased to contract for the growing in Corea of any other kind of seed for 1923-1924, provided you supply the stock seeds for such purpose, as cost of labor is very low and no doubt we shall be able to meet any competition.

Orders should be with us end of June at the latest.

All orders accepted subject to crop.

We give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds we send out and we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.
